

“Focus: Getting a Clear View of the Real God” is a seven week all-church series that will focus on the person and characteristics of God. Each week our children, student and adults will hear a message on one of the attributes of God. Our Life Groups will follow the same theme in their weekly meetings. They will watch a short teaching video by one of our staff and then discuss how it relates to their life. Finally, there will be a daily devotion that each person can read that relates to the theme that is being written by people in our church family. Below is a list of Life Groups that are open to adding people to their group for this series.
